AP AT SSIS

The AP program at SSIS includes challenging courses across six departments. The flexibility of AP courses permits students to take them together with SSIS based courses and electives. Students taking AP courses take the corresponding AP exam in May.

- Course offerings are tentative and driven by student-demand. Not all courses will be run every year.
- Some AP courses have prerequisites that must be met for students to enroll.
- There are limits on the number of AP courses students can take in each grade.
- Details on how each course is run at SSIS are found in the course description in the SSIS High School Program of Studies.
 - [Program of Studies: 2020 - 2021](#)
 - Program of Studies: 2021 - 2022 (To be released later this year)
